### INDEPENDENT AUDITOR'S REPORT

To,  
The Members,  
Credo Mineral Industries Limited,  
Ahmedabad, Gujarat.

#### **Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of Credo Mineral industries Limited (hereinafter referred to as "the Holding Company") and its subsidiaries as described in note 1(A) to the attached consolidated financial statements (the Holding Company and its subsidiaries together referred to as "the Group"), comprising of the consolidated Balance Sheet as at March 31, 2018, the consolidated Statement of profit and Loss, the consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the Consolidated Financial Statements").

#### **Management's Responsibility for the Financial Statements**

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated financial statements in terms of requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report

under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Holding Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by other auditors in terms of their reports referred to in sub-paragraph of the other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

#### **Opinion**

Based on our audit and on consideration of the reports of the other auditors on the financial statements of the subsidiaries referred to below in the other Matters paragraph, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at March 31, 2018, and their consolidated profit and their consolidated cash flows for the year ended on that date.

#### **Report on Other Legal and Regulatory Requirement**

As required by section 143 (3) of the Act, we report, to the extent applicable, that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statement.

(b) In our opinion, proper books of account as required by law relating to the preparation of the aforesaid consolidated financial statements have been kept by the Holding Company so far as it appears from our examination of those books and the reports of the other auditors.

(c) The Consolidated Balance Sheet, the Consolidated Statement of profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements.

(d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133-of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

(e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2018 and taken on record by the Board of Directors of the Holding Company and the reports of the other statutory auditors of its subsidiary companies, none of the directors of the Group Companies is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and its subsidiary companies and the operating effectiveness of such controls, refer to our separate Report in Annexure A.

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The consolidated financial statements disclose the impact, if any of. Pending litigations as at 31<sup>st</sup> March, 2018 on the consolidated financial position of the Group.

ii. The Group did not have any long term contracts, including derivative contracts, for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies.

### **ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT**

Referred to in the Independent Auditors' Report of even date to the members of Credo Mineral Industries Limited on the consolidated financial statements for the year ended 31 March, 2018. Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the company and its subsidiary companies, which are companies incorporated in India, as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of CREDO MINERAL INDUSTRIES LIMITED (' hereinafter referred to as the Holding Company,), as of that date.

#### **Management's Responsibility for Internal Financial controls**

The respective Board of Directors of the Holding company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on "internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of internal Financial controls over Financial Reporting issued by the Institute of chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note,") and the Standards on Auditing, issued by ICAI and the standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Other Matters**

We did not audit the financial statements and other financial information, in respect of 2 subsidiaries as at March 31, 2018. These financial statements and other financial information have been audited by other auditors, whose financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associates, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of such other auditors.

The comparative financial information of the Group including its Subsidiaries for the year ended March 31, 2017 prepared in accordance with Indian Accounting Standard (Ind AS), included in these Consolidated Financial Statements, have been audited by the predecessor auditors. The report of the predecessor auditor on the comparative financial information expressed an unmodified opinion.

**Meaning of internal financial controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or "timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements"

**Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Holding Company and its subsidiary companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Other Matters**

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to three subsidiary companies, which are incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India. Our opinion is not qualified in respect of this matter.

## Notes on Accounts for the financial year ended on 31<sup>st</sup> March, 2018

### Note: 1 (a) Significant Accounting Policies

#### Basis of Preparation of financial statement

The consolidated financial statements has been prepared on the historical cost basis except for the certain financial assets and liabilities which have been measured at fair value amount.

The consolidated financial statement of the group have been prepared to comply with the Indian Accounting Standards (Ind AS), including the rules notified under the relevant provisions of the Companies Act, 2013.

Up to the year ended March 31, 2016, the Group have been prepared its consolidated financial statements in accordance with the requirement of Indian Generally Accepted Accounting Principles (GAAP), which includes Standards notified under the Companies (Accounting Standards) Rules, 2006 and considered as "Previous GAAP".

These consolidated financial statements are the Group's first Ind AS consolidated financial statements.

The company's consolidated financial statements are presented in Indian Rupees.

The consolidated financial statements have been prepared in accordance with Ind AS 110 on "Preparation of Consolidated Financial statements" and on the basis of the separate audited financial statements of "Credo Mineral Industries Limited (CMIL) and its subsidiaries. Reference in the notes to Group shall mean to include CMIL and its subsidiaries in these financial statements unless otherwise stated.

The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Sec133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

#### Principles of Consolidation

The consolidated financial statement related to Credo Minerals Industries Limited ('the Company') and its subsidiary companies, associates and joint ventures. The consolidated financial statements have been prepared on the following basis:

- a) Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continues to be consolidated until the date that such control ceases (including through voting rights).
- b) The financial statements of the Company and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, equity incomes, expenses and cash flows, after fully eliminating intra-group balances and intra-group transactions.
- c) Profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and property, plant & equipment, are eliminated in full.
- d) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- e) The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as on the date of disposal is recognised in the Consolidated Statement of Profit and Loss being the profit or loss on disposal of investment in subsidiary.
- f) Non-Controlling interest's share of profit/loss of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the company.
- g) Non-controlling interest's share of net assets of consolidated subsidiaries is identified a presented in the consolidated Balance sheet separate from liabilities and the equity of the Company's shareholders.

- h) The company accounts for its share of post-acquisition changes in net assets of associates and joint ventures, after eliminating unrealised profits and losses resulting from transactions between the company and its associates to the extent of its share, through its consolidated statement of Profit and Loss, to the extent such change is attributable to the associate's statement of Profit and Loss and through its reserves for the balance based on available information.
- i) The excess of the cost to the holding company of its investment in subsidiaries over the subsidiary companies portion of equities on the acquisition date is recognised in the financial statements as goodwill and is tested for impairment annually. When there is excess of Holding Company's portion of equity of the subsidiary over the cost of the investment then it is treated as Capital Reserve.
- j) Minority Interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the statement of profit and loss and consolidated balance sheet, separately from parent shareholder's equity. Where accumulated losses attributable to the minorities are in excess of their equity, in the absence of the contractual obligation on the minorities, the same is accounted for by the Parent Company.
- k) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and necessary adjustments required for deviations if any, have been made in the consolidated financial statements.
- l) The Company, has disclosed only such policies and notes from individual financial statements, which fairly, present the needed disclosures. Lack of homogeneity and other similar considerations made it desirable to exclude some of them, which in the opinion of the management, could be better viewed, when referred from the individual financial statements.

The list of Companies/ firms included in consolidation, relationship with Credo Mineral Industries Ltd., shareholding therein is as under:

| Sr. No. | Name of the Company                                 | Country of Incorporation | As on 31-03-2018 | As on 31-03-2017 |

**Current & Non-Current Classification**

All the assets and liabilities have been classified as current or non-current as per the group's normal operating cycle and other criteria set in Schedule III to the Companies Act, 2013. Based on the nature of activities and time between the activities performed and their subsequent realization in cash or cash equivalents, the respective group has ascertained their operating cycle for the purpose of current / non-current classification of assets and liabilities and the same is consolidated on a line-by-line basis.

**Cash Flow Statement**

- a) Cash, for the purpose of cash flow statement comprises cash on hand and demand deposit with banks. Cash equivalents, for the purpose of cash flow statement, are short-term balances (with an original maturity of three

months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

- b) Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating financing and investing activities of the company are segregated.

**Note: - 1 (b) Other Significant Accounting Policies**

**(A) Use of estimates**

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimate could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

**(B) Property, plant and equipment**

Free hold Land is measured at fair value at the date of revaluation. Valuations are performed with sufficient frequency to ensure that the carrying amount of a revalued asset does not differ materially from its fair value.

A revaluation surplus is recorded in OCI and credited to the asset revaluation surplus in equity. However, the increase shall be recognized in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss. If an assets carrying amount is decreased as a result of revaluation, the decrease shall be recognized in profit or loss. However, the decrease shall be recognized in OCI to the extent of any credit balance existing in the revaluation surplus in respect of that asset. The decrease recognized in OCI reduces the amount accumulated in the equity under the heading of revaluation surplus. Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred directly to retained earnings.

Other items of property, plant and equipment are stated at cost net of recoverable taxes, trade discounts & rebates and include amounts added on revaluation, less accumulated depreciation and impairment loss, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the statement of profit and loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell. Repairs and maintenance costs are recognized in net profit in the statement of profit and loss when incurred. Any adjustments made to the amount payable in relation to the acquisition of the fixed assets are adjusted against the cost of the assets.

Freehold land is not depreciated. The company depreciates property, plant and equipment over their estimated useful lives as prescribed under Schedule II of the Companies Act, using the straight-line method. Leasehold assets are depreciated over the lease term

Some of the Plant and Machinery are depreciated at the rates different from those prescribed in Schedule II to the Companies Act, 2013 based on technical evaluation of estimated useful lives done by the management.

| Asset Description | Useful life as estimated by management (in years) | Useful life under Schedule II (in years) |
|-------------------|---|--|
| Plant & Machinery | 5 to 10   | 15                                       |

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other noncurrent assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

**(C) Intangible Assets**

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Research costs are expensed as incurred. Development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the asset and the costs can be measured reliably. Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit. Amortization expense is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. Company treated Product Development Cost as Intangible assets because from these future economic benefit is probable to flow to the company. Company has decided the useful life of Product Development Cost as under and likewise amortize the Product Development Cost over its Useful life of assets.

| Assets description       | Useful life as estimated by management (in years) |
|--------------------------|---|
| Product Development Cost | 25  |

**(D) Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**a) Initial recognition and measurement**

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value plus or minus directly attributable transaction costs on initial recognition, except for financial assets and liabilities not classified at fair value through profit or loss.

**b) Subsequent measurement**

**Non-derivative financial instruments**

**(i) Financial assets carried at amortized cost**

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**(ii) Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial instruments within the fair value through other comprehensive income are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income.

**(iii) Financial assets at fair value through profit or loss**

Any financial assets which are not classified in any of the above categories are subsequently measured at fair value through profit or loss.

Financial instruments within the fair value through profit or loss are measured at fair value with all the changes recognized in the P&L.

**(iv) Financial liabilities**

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

**c) De-recognition**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily de-recognized when:

- i. The rights to receive cash flows from the asset have expired, or
- ii. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party and either
  - (a) The Company has transferred substantially all the risks and rewards of the asset, or
  - (b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

**(E) Impairment**

**a) Financial assets**

The company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in profit or loss.

**b) Non-financial assets**

Non-Financial assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash –Generating Units (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. Reversal of impairment loss is recognized if there has been a change in the estimates used to determine the recoverable amount in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

**(F) Fair value of financial instruments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In determining the fair value of its financial instruments, the company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

**(G) Inventories**

Inventories are valued at the lower of cost and net realizable value.

Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition.

Cost of raw materials, stores and spares, finished goods, stock-in-trade and other products are determined on First in First out (FIFO) basis.

**(H) Income taxes**

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

MAT Credit receivable is recognized in the books of the company only when and to the extent that there is convincing evidence that the company will be able to avail the future economic benefits arising there from during the specified period in which tax credit is allowable.

**(I) Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The Company has assumed that recovery of excise duty flows to the company on its own account. This is for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the company on its own account, revenue includes excise duty. However, sales tax/ value added tax (VAT)/ Good and Service Tax is not received by the company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

Revenue from sale of goods in the course of ordinary activities is recognized when property in the goods or all significant risks and rewards of their ownership are transferred to the customer and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods and regarding its collection.

Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable except the interest income on government deposit, if any, is recognized as and when realized by the company. Export related benefits are recognized in the year of export itself provided no uncertainty exists. Dividend Income is recognized when the right to receive the payment is established.

**(J) Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**(K) Provisions, Contingent Liabilities and Contingent Assets**

A provision is recognized when the company has a present obligation as a result of a past event and it is probable that an outflow of resources would be required to settle the obligation and in respect of which a reliable estimate can be made. The expenses relating to provision is presented in the statement of profit and loss account.

A disclosure of the contingent liability, if determinable, is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. But where there is a possible obligation but the likelihood of outflow of resources is remote, no provision / disclosure are made.

Contingent asset is disclosed in the financial statements where an inflow of economic benefits is probable and are assessed continually.

**(L) Employee Benefits**

**a) Short Term Employee Benefits**

Employee Benefits payable wholly within twelve months of receiving employee services are classified as short term employee benefits. These benefits include salaries and wages, bonus and performance incentive. The amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognized as an expense during the period when the employees render the services.

Leave Encashment is due and recognized as expense immediately after the end of each calendar year in which the employees renders the related employee services.

**b) Post-Employment Benefits**

Retirement benefits in the form of provident fund (where contributed to the Regional PF Commissioner) are a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund contribution scheme. The Company recognizes contribution payable to the provident fund scheme as expenditure, when an employee renders the related service.

Gratuity liability under the Payment of Gratuity Act is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. The Company fully contributes all ascertained liabilities to the trust formed for Employees Group Gratuity Assurance Scheme. Trustees administer the investments made through contributions in the said scheme with Life Insurance Corporation of India as permitted by the law.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit

to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

#### **(M) Foreign Currencies**

Transactions and Balances:-

Foreign currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the statement of profit and loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit or the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

#### **(N) Leases**

Finance leases including rights of use in leased land, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at inception of the lease term at the lower of the fair value of the land and present value of the minimum lease payments and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized as finance cost in the statement of profit and loss.

A leased asset is depreciated / amortized on a straight line basis over the useful life of the asset. However, If there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalized leased assets is depreciated /amortized on a straight line basis over the shorter of the estimated useful life of the asset or the lease term.

Leases, wherein the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss on a straight-line basis over the lease term.

#### **(O) Events occurring after reporting period**

Events after the reporting period are those events, favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are approved by the Board of Directors. Events those provide evidence of conditions that existed at the end of the reporting period are adjusting events and events those are indicative of conditions that arose after the reporting period are non-adjusting events. The amounts recognized in the

financial statements are adjusted to reflect the adjusting events after the reporting period but not in the case of non-adjusting events.

**(P) Earnings Per Share:**

Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for the events, other than conversion of potential equity share, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating, diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

Note-2  
Property, plant and equipment

| Particulars                     | Gross Block     |                          |                           | Depreciation/Adjustment |                          |                           | Net Block        |                      |                      |

Notes

1) Revaluation of Land

- Revaluation of the Land was determined on the basis of open market value by independent valuer considering the factors like specification, condition, age, future life, replacement cost, potential for marketability etc., as on 30th September 2014. The same has been considered as deemed cost as on the date of transition i.e., 1st April 2015 under IND/AS
- The revalued amount is not materially different from the fair value on the closing date i.e., as on 31st March 2018
- If land were measured using cost model. The carrying amounts would be as follows:-

| Particulars                | 31st March 2018    |                          | 31st March 2017    |                          |
|----------------------------|--------------------|--------------------------|--------------------|--------------------------|
|                            | Cost               | Accumulated Depreciation | Cost               | Accumulated Depreciation |
| Cost                       | 2,11,28,703        | -                        | 2,11,28,703        | -                        |
| Accumulated Depreciation   | -                  | 2,11,28,703              | -                  | 2,11,28,703              |
| <b>Net Carrying Amount</b> | <b>2,11,28,703</b> | <b>2,11,28,703</b>       | <b>2,11,28,703</b> | <b>2,11,28,703</b>       |

2) (i) During the year, the management based on technical evaluation and consumption pattern of economic benefits of the fixed assets, reassessed the depreciation method. Accordingly the method of depreciation has been changed from Written down Value (WDV) to Straight Line Method (SLM) prospectively.

(ii) Had the Company continued with the WDV Method, charge for depreciation for the year would have been higher by 579.87 lakhs and profit lower by 579.97 lakhs for the year ended 31st March 2017

(iii) The amount of the effect of the change in method of depreciation on future periods is not disclosed as the estimation of the same is impracticable.
